

NURMUHAMMED MUHAMEDI

Age: 20

Preferred position: *Front-end Developer*

ABOUT ME

I am a junior Front - end developer. I strive to gain as much practical experience as possible in real projects, so, I am focused on active and productive work.

I'm a fast learner and interested in getting more. And most importantly, I have a burning desire to learn everything.

In the future I want to become a Full-Stack developer, and I am currently actively studying Spring and React. And I want to start my journey with a React in Front, but I don't mind trying myself in the Backend.

PROJECTS

Social - Network

- A simple social network where you can log in, view friends, subscribe to them, view their page, as well as edit your profile, upload an avatar, change status, add posts, messages and likes, etc.
- Created using: React-Redux, JSX, requests from a real API, also styled by SCSS preprocessor
- Link to Deploy - nurmoohamedi.github.io/social-network/
- Link to GitHub - github.com/nurmoohamedi/social-network

Simple Weather App

- A simple Weather Forecast service where you enter the name of the city, and the service finds you the weather for the current date and for the coming days.
- Created by React. The service works with API Metaweather API.
- Note: Works only with famous cities (for which API knows)
- Link to Deploy - nurmoohamedi-weather-app.netlify.app/
- Link to GitHub - github.com/nurmoohamedi/weather-app

Simple Note App

- Application in which you can add, delete, edit, filter, search for notes. Also implemented tags, and you can search by tags, dark mode.
- Created using: React-Redux, SCSS.
- Link to Deploy - nurmoohamedi.netlify.app/
- Link to GitHub - github.com/nurmoohamedi/notes

Computer Shop Service

- The FullStack app where you can buy, view spare parts and peripherals for computers. Also add to cart and make a purchase.
- Front is made on a React, and the Backend is made on a Spring.
- As databases used PostgreSQL. The Rest API architecture used.
- The project is working, but it has not been deployed yet!

LANGUAGES

- Kazakh (native)
- Russian (fluent)
- English (intermediate)

HOBBY

Music, volleyball, football, cycling, reading books, interest in technology, web design.
